I think the algorithms reading roadmap is:
Algorithms (Sedgewick) -> CLRS ->
Introduction to Analysis of Algorithms ->
TAoCP. However, the huge problem
which makes me voting 4 star for the book
is that some figures and illustrates are
rendered badly (page 9, 675, 624, 621,
579, 576, 346, 326).
