This book is an exploration of the economic history of the German Democratic Republic, with an emphasis upon its confrontation by and contribution towards economic and military competition on the world stage. Beginning with an analysis of the Soviet bloc as a state-capitalist formation, the GDR's economic history is charted, with detailed examinations of the challenges to Soviet-style autarky that were posed by the globalising world market, as well as of GDR policymakers' attempts to use Western imports and credits as a 'whip' to spur growth. The book's central section consists of an exploration of the ambivalent attitudes of East German policymakers and industrialists towards their West German counterparts in the 1980s, as the whip was transformed into an ever-tightening noose of debt. Here, a prodigious range of secondary sources as well as hitherto unpublished documents from the archives of the old regime are drawn upon to document the means by which relative economic decline and dependency upon Western institutions came to constrain the options available to the East German nomenklatura. Finally, this study analyses the political economy of the 1989 revolution and unification and of post-unification Eastern Germany.

our way of life. We could find ourselves facing myriad serious problems from massive unemployment to a food shortage to an infrastructure failure that cuts off our power or water supply. If something terrible happens, we won't be able to rely on the government or our communities. We'll have to take care of ourselves. In *How to Survive the End of the World as We Know It*, James Rawles, founder of SurvivalBlog.com, clearly explains everything you need to know to protect yourself and your family in the event of a disaster—from radical currency devaluation to a nuclear threat to a hurricane. Rawles shares essential tactics and techniques for surviving completely on your own, including how much food is enough, how to filter rainwater, how to protect your money, which seeds to buy for your garden, why goats are a smart choice for livestock, and how to secure your home. It's the ultimate guide to total preparedness and self-reliance in a time of need.

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness
