This textbook has been designed to meet the needs of B.Sc. Fourth Semester students of Chemistry as per the UGC Choice Based Credit System (CBCS). With its traditional approach to the subject, this textbook lucidly explains principles of chemistry. Important topics such as transition elements, coordination chemistry, crystal field theory, kinetic theory of gases, liquids, solids and chemical kinetics are aptly discussed to give an overview of inorganic and physical chemistry. Laboratory work has also been included to help students achieve solid conceptual understanding and learn experimental procedures.

This book has been thoroughly revised according to the syllabus of Semester-IV (2nd year's 2nd semester) students of all universities of Andhra Pradesh. The revised syllabus is being adopted by all the universities in Andhra Pradesh, following Common Core Syllabus 2015-16 (revised in 2016) based on CBCS. This book strictly covers the new curriculum for 2nd year's 2nd semester of the theory as well as practical.

The revised syllabus for core courses in CBCS / Semester system is being followed by all the universities in Andhra Pradesh, from the academic year 2020 - 2021. This book strictly covers the new curriculum for Course I (Semester I - 1st year, 1st semester) under this syllabus

S.Chand Textbook of Chemistry Sem-I H.P.Shimla

It is a matter of great pleasure to present this book Zoology Paper-I (ZOL-101) for the students of F.Y. B.Sc. (Semester I) Zoology written accordance with syllabus of Dr.Babasaheb Ambedkar Marathwada University, Aurangabad. You are aware that diversity in animal kingdom does not exists in their shape, and size but also in their species, number and habitat. Starting from the indefinitely deep oceans to snow covered mountain peaks and from the poles of the earth to the equator, the animals inhabit all the places. To study this large groups of animals which are grouped basically in invertebrates and vertebrates a vast number of books, research papers were published worldwide. Marathwada region is still economically backward and majority of students are residing in rural areas where teaching learning in virtual class and availability of reference books in libraries is a major setback in " overall development " of the student. It is very hard for a educational institute from rural areas to purchase reference books as per the number of students. To minimize the problem I decided to publish / written the book according to syllabus so that a student can afford the price and study the subject. The present venture is an attempt to put the available information together in the form of a critical review. As this subject is very vast large number of books have been consulted so the author claims no originality of work. For this, I am deeply grateful to the authors and publishers. The subject matter has been presented in an easy, lucid language and in an systematic manner. After every chapter various types of questions have been added as per the requirement. I feel that this book will fulfill the requirements of the students.

This book has been thoroughly revised according to the syllabus of 1st year's 2nd semester students of all universities in Andhra Pradesh. The revised syllabus is being adopted by all the universities in Andhra Pradesh, following Common Core Syllabus 2015-16 (revised in 2016) based on CBCS. This book strictly covers the new curriculum for 1st year, 2nd semester of the theory as well as practical.

This textbook has been designed to meet the needs of B.Sc. Third Semester students of Chemistry as per the UGC Choice Based Credit System (CBCS). With its traditional approach to the subject, this textbook lucidly explains principles of chemistry. Important topics such as solutions, phase equilibrium, conductance, electrochemistry, carboxylic acids, amines, diazonium salts, amino acids, peptides, proteins and carbohydrates are aptly discussed to give an overview of physical and organic chemistry. Laboratory work has also been included to help students achieve solid conceptual understanding and learn experimental procedures.
