Many are leading Christian physicians, psychiatrists, pediatricians, psychologists and professors in their respective medical professions.

~~The complete resource for communicating with your baby!~~
 The complete resource for communicating with your baby! Whether you're new to signing with your baby or looking to expand both of your vocabularies, The Complete Guide to Baby Sign Language--from TinySigns® founder Lane Rebelo--makes it a snap. Featuring more than 200 American Sign Language (ASL) signs, this book will have you and your little one signing up a storm. Infants and toddlers can use sign language well before they can speak, offering an exciting opportunity for the two of you to communicate in deeper and more complete ways. Start things off with baby sign language essentials--like "eat," "more," and "all done"--then move on to more complex ideas--like different foods, the outside world, opposites, and emotions. The Complete Guide to Baby Sign Language includes: Songs and activities-- Incorporate baby sign language into everyday fun and master advanced signing concepts. Fully illustrated--Detailed illustrations simplify the learning process and make sure both of you are signing perfectly. Advanced tips--Get helpful advice and practical tools (including memory tips and baby sign approximations) that show how easy teaching your baby sign language it can be. Discover a new way to truly connect with your baby using The Complete Guide to Baby Sign Language.

~~First you need an education, then a career. You might want to see a bit of the world and find yourself. You have to meet the right man (this is often the tricky part!). Before you know it, you're in your thirties and they're telling you to get a move on if you still want to procreate. Hang on a minute, who's in charge here? Later mothers are proven to be more secure emotionally and financially than younger mothers and nearly a quarter of all women in the UK are now having babies after 35. Packed full of useful tips from top medical experts, scientists and pregnancy gurus, this book is a complete guide for the woman who's lived a life before breeding. It includes:~~
 • preparing for pregnancy and motherhood • how to improve egg quality and prolong fertility so you can get pregnant naturally • exercises, relaxation techniques, mind-body connection for conception • how to increase your chances of success at IVF • making the most of your pregnancy, month by month • ways to avoid miscarriage • how to have the best birth possible • from me to mum - adjusting to lack of sleep, relationship changes and that other job • parenting secrets and concepts from around the globe to inspire new mothers • the latest research in neuroscience, nutrition and psychology

 A guide to caring for a baby covers such topics as feeding, sleep habits, discipline, healthcare, and play.

~~Available for the first time in full color, the up-to-date and authoritative pregnancy guide that has sold 1.5 million copies--by recognizing that "one size fits all" doesn't apply to maternity care Parents love this book because it puts them in control; experts love it because it's based on the latest medical research and recommendations from leading health organizations. Pregnancy, Childbirth, and the Newborn provides the information and guidance you need to make informed decisions about having a safe and satisfying pregnancy, birth, and postpartum period--decisions that reflect your preferences, priorities, and values. Unlike pregnancy guides that can overwhelm and alarm by telling you up front all the things that can possibly go wrong, this book first describes normal, healthy processes, their typical variations, and the usual care practices for monitoring them. Only then does it cover possible complications and the care practices and procedures for resolving them. Throughout, the presentation is crystal-clear, the tone is reassuring, and the voice is empowering. And the language is inclusive, reflecting today's various family configurations such as single-parent families, blended families formed by second marriages, families with gay and lesbian parents, and families formed by open adoption or surrogacy. From sensible nutrition advice to realistic birth plans, from birth doulas when desired to cesareans when needed, from reducing stress during pregnancy to caring for yourself as well as your baby after birth, this pregnancy guide speaks to today's parents-to-be like no other.~~

~~UPDATED EDITION 2018 The first six months with a new baby is a special and exciting time full of milestones and new experiences. This updated edition of Your Baby Week by Week explains the changes that your baby will go through in their first six months. Each chapter covers a week of their development so you'll know when your baby will start to recognize you, when they'll smile and laugh for the first time and even when they'll be old enough to prefer some people to others! Paediatrician Dr Caroline Fertleman and health writer Simone Cave's practical guide provides reassuring advice so you can be confident about your baby's needs. Including:~~
 - How to tell if your baby is getting enough milk - Spotting when you need to take your baby to the doctor - Identifying why your baby is crying - How long your baby is likely to sleep and cry for - Tips on breastfeeding and when to wean your baby Full of all the information and tips for every parent Your Baby Week by Week is the only guide you'll need to starting life with your new arrival.

~~Everything you need to know about getting your baby or toddler to sleep -- from America's foremost baby and childcare experts. Babies don't automatically know how to sleep through the night; they need to be taught. The Sears family has learned from decades of pediatric practice, bolstered by their own parenting experiences, that different babies have different nighttime temperaments -- and, of course, different families have different lifestyles. Instead of espousing the kind of "one method fits all" approach advocated in other baby sleep guides, the Sears family explains how you can create a sleep plan that suits the needs of your entire family. With a sharp focus on the practical tools and techniques, The Baby Sleep Book covers such topics as: The facts of infant sleep vs. adult sleep Figuring out where, when, and how your child sleeps best Fail-safe methods for soothing a crying infant How to make night nursing easier, and how to stop Nighttime fathering tips Whether co-sleeping makes sense for you Nap-time strategies that work Medical and physical causes of night waking Sleep habits in special situations such as traveling, teething, and illness~~

~~If you would like to celebrate the arrival of a new baby with friends and family, but are looking for an alternative to a traditional christening, this is the book for you. Civil weddings have been popular for a long time, but you can now have a Civil Naming ceremony for your child, held either at your local registry office, or at any venue of your choice. As there is no legal requirement, you can hold the party at home, in your garden, or at any venue you like. You can host the event yourselves, or ask a registered celebrant to host the event. This book contains lots of ideas to make your civil naming ceremony memorable and unique to your family. There are ideas for poems, readings, music, themes, and special ideas for how to mark the occasion. Everyone can get involved; grandparents, siblings, and specially nominated adults who can act as guardians. There are readings suitable for all. This book includes:~~
 - How to plan the naming party and ceremony - Ideas for indoors and outdoors decor, plus simple decorations - Providing entertainment and fun for children and adults - 10 special event ideas for the day, such as star naming, planting a tree and filling a time capsule - Traditional and contemporary ideas for readings and poems with new, specifically commissioned poems that are particularly relevant to this special occasion - Ideas and recipes for delicious food and drink
