alternative to MIS instructors who are constantly searching for a new and interesting approach to teaching the course. Note: MyMISLab is not included with the purchase of this product.

Using MIS is the book that teaches students how people use information systems to solve business problems. Building on students' experience and knowledge base from personal MIS to workgroup MIS to enterprise MIS, this text stresses the important role of Information Systems in satisfying business objectives. Realistic examples, mini-cases, case applications, and thought-provoking review material with projects promote active learning. This text is beneficial to the business professional interested in a basic understanding of management information systems today.
