An authoritative guide to evidence-based treatment of infants and young children Evidence-Based Practice in Infant and Early Childhood Psychology is the first handbook of its kind to consider the complete psychological needs of infants and young children, from birth to early childhood. With a focus on evidence-based practice, the book provides a balanced perspective of diverse and ethical practice with research and educational recommendations interwoven throughout. Comprehensive in scope, Evidence-Based Practice in Infant and Early Childhood Psychology is divided into four sections: Foundations provides the framework for considering psychological and educational service provisions for young children and their families Assessment and Intervention includes chapters on assessing infants, toddlers, preschoolers, parents and families, and bilingual and multicultural children Evidence-Based Practice addresses evidence-based treatments for particular issues such as autism, ADHD, health impairments, and more Contemporary Issues examines current perspectives on issues such as childcare, neuropsychology, Response to Intervention (RTI) and violence prevention

From three design partners at Google Ventures, a unique five-day process--called the sprint--for solving tough problems using design, prototyping, and testing ideas with customers.

Handbook of Clinical Psychology, Volume 1: Adults provides comprehensive coverage of the fundamentals of clinical psychological practice for adults from assessment through treatment, including the innovations of the past decade in ethics, cross cultural psychology, psychoneuroimmunology, cognitive behavioral treatment, psychopharmacology, and geropsychology.

The family that you have grown to love has RETURNED! The journey continues as this family tries to pick up the pieces after a few events knocked them off their feet. This book series is amazing because it is packed with real life situations and emotions that we all can relate to. You can expect to fall in love with these characters over and over again because they will remind you of yourself at some point in your life whether you are a teen or adult. The question on everyone's mind is will Quiana and Monique ever stop their sibling feuding? The only way to find out is to take a look inside.....

The production of this manual is a joint activity between the Climate, Energy and Tenure Division (NRC) and the Technologies and practices for smallholder farmers (TECA) Team from the Research and Extension Division (DDNR) of FAO Headquarters in Rome, Italy. The realization of this manual has been possible thanks to the hard review, compilation and edition work of Nadia Scialabba, Natural Resources officer (NRC) and Ilka Gomez and Lisa Thivant, members of the TECA Team. Special thanks are due to the International Federation of Organic Agriculture Movements (IFOAM), the Research Institute of Organic Agriculture (FiBL) and the International Institute for Rural Reconstruction (IIRR) for their valuable documents and publications on organic farming for smallholder farmers.

This practical guide contains seven modules targeted at district and health facility staff. It intends to meet the demands to improve immunization services so as to reach more infants in a sustainable way, building upon the experiences of polio eradication. It includes materials adapted from polio on planning, monitoring and use of data to improve the service, that can be used at any level. Revising the manual has been a team exercise. There are contributions from a large number of experts, organizations and institutions. This new edition has seven modules. Several new vaccines that have become more readily available and used in recent years have been added. Also the section on integration with other health interventions has been expanded as exciting opportunities and experiences have become evident in the years following the previous edition. Module 1: Target diseases and vaccines Module 2: The vaccine cold chain Module 3: Ensuring safe injections Module 4: Microplanning for reaching every community Module 5: Managing an immunization session Module 6: Monitoring and surveillance Module 7: Partnering with communities.

This handbook provides an overview of the research on the changing nature of work and workers by marshalling interdisciplinary research to summarize the empirical evidence and provide documentation of what has actually changed. Connections are explored between the changing nature of work and macro-level trends in technological change, income inequality, global labor markets, labor unions, organizational forms, and skill polarization, among others. This edited volume also reviews evidence for changes in workers, including generational change (or lack thereof), that has accumulated across domains. Based on documented changes in work and worker behavior, the handbook derives implications for a range of management functions, such as selection, performance management, leadership, workplace ethics, and employee well-being. This evaluation of the extent of changes and their impact gives guidance on what best practices should be put in place to harness these developments to achieve success.
