Failure to do so can lead to engine failure when the timing belt fails – which usually requires expensive repairs! While the cost of having your timing belt replaced can be a bit of a shock, it 's a lot cheaper than having to replace your engine due to a failure.

at the 176,000km mark.

The service book specifies that the timing belt needs replacement after 60,000km. The last service that the car underwent, from what was in the book, was the 60,000km service. This service was done by a regular Holden dealer, therefore I assume the timing belt was done then.
