A faithful reproduction of the 1970 Floyd Clymer publication of the official Honda Factory Workshop Manual specific to the n00 50cc Super Cub series of motorcycles. This manual includes all of the data that you would expect from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components. It also includes a comprehensive trouble shooting section plus tables of technical data, tolerances and fits making it an invaluable resource for collectors and restorers of these classic Honda motorcycles. There are 136 illustrations and each procedure is explained in a step-by-step method using an appropriate illustration. The translation from Japanese to English is, at times, a little quirky but the illustrations make up for any difficulty in understanding what needs to be done! There are separate sections that deal with the repair and overhaul procedures for the engine, transmission, wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is a - must have - reference for any Honda enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic motorcycles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide.

An unflinching eyewitness account of the Ford story as told by one of Henry Ford's closest associates.

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

"A fascinating account of human experience at its best." -- Mihály Csízentmihály, author of Flow Creativity has long been thought to be an individual gift, best pursued alone; schools, organizations, and whole industries are built on this idea. But what if the most common beliefs about how creativity works are wrong? Group Genius tears down some of the most popular myths about creativity, revealing that creativity is always collaborative -- even when you're alone. Sharing the results of his own acclaimed research on jazz groups, theater ensembles, and conversation analysis, Keith Sawyer shows us how to be more creative in collaborative group settings, how to change organizational dynamics for the better, and how to tap into our own reserves of creativity.

'Inspired', 'enthraling' and 'stylish' are just some of the words used to describe the first edition of Bearback. Now in paperback, Pat Garrod's remarkable story is set to be discovered by even more travellers.. Imagine jacking it all in, packing your life into a 41-litre pannier and riding into the sunset. Bearback is the story of two GPs who did just that, downing stethoscopes to take off on their motorcycle, The Bear, to see the world. Across the deserts of Africa, over the mountains of the Andes, deep into the jungles of Indochina, and beyond the Arctic Circle; 100,000 miles through six continents and 64 countries. A circumnavigation of epic proportion and entirely unsupported, it was to become one of the longest journeys ever undertaken by a couple on one motorcycle, a journey destined to change their lives forever. 'A remarkable journey. Searching, honest, uplifting' – Sir Ranulph Fiennes 'An inspired travelogue, dispelling the myth that remarkable journeys are out of your grasp' – National Geographic Traveller 'Belts along at a cracking pace. Stylish and good quality' - RIDE 'I didn't want this enthralling book to end. If you only read one travelogue this year, make it this one' – Real Travel, Book of the Month 'We've all dreamed about it – quitting the job, packing up the house, and hitting the road for the adventure of a lifetime. Few do it, and even fewer do it as well as Pat Garrod' – Travel Africa Magazine
