Hydroponics Gardening Tips, Techniques - a Full Guide ...

The term hydroponics derives from the Greek words for water (hydro) and work (ponos) - "working with water". In a hydroponic system plant roots do not grow in soil, but in nutrient-enriched water. Compared to the cultivation in soil, the plants get everything they need to grow through the nutrient solution, delivered directly to the roots.

Hydroponic: Hydroponics Guide

By feeding nutrients directly to the roots of plants, hydroponics makes greater use of space and resources, easing demands on water and suggesting a new kind of farmer: the small space, urban gardener. Hydroponic gardens can be found on

Hydroponics: Hydroponics Gardening For Beginners - A ...

Hydroponics is a Greek term, made from two words - Hydro means water and Ponos means labor. And hence "working water" is its raw meaning. To put simply, Hydroponics is the method of growing plants without soils. Plants are grown in a soilless medium (we'll know about it below) and come into contact with the nutrients in the water for their growth.

Hydroponics For Beginners - The Definitive Guide | Trees.com

Dean Deschain is out to change that with "Hydroponics 101: A Complete Beginners Guide to Hydroponic Gardening." Hydroponics is a combination of two Greek terms, 'Hydro' meaning water and 'ponics', which means labor. The age of these terms lends weight to the age and idea of Hydroponics, which has been around for over a thousand years.
