The Best IB Math Study Guide and Notes for SL/HL

The IB Mathematics curriculum change is significant. The 4 current subjects (Studies, SL, HL & Further) are being replaced by two “ routes ” that can be taken at either a Standard Level (SL) or Higher Level (HL). The two routes are “ Analysis & Approaches (AA) ” and “ Applications & Interpretations (AI) ” . This creates 4 brand new subjects: AA SL, AA HL, AI SL, AI HL.

New IB Math Curriculum Information 2021 | Revision Village

Revision Village was ranked the #1 IB Math Resources by IB Students & Teachers in 2019 & 2020. 31% Grade Increase Revision Village students scored 31% greater than the IB Global Average in their exams (2019). 70% of IB Students

Revision Village - IB Math

IB Mathematics Higher Level Review Guide. Future students of IB HL Maths are advised that the content of these pages will be out of date soon, and will no longer be appropriate for courses starting in August 2012. The IB Mathematics HL curriculum consists of seven core topics and four options. All seven core subjects are required and one of the four options must be chosen.

This title forms part of the completely new Mathematics for the IB Diploma series. This highly illustrated book covers topic 7 of the IB Diploma Higher Level Mathematics syllabus, the optional topic Statistics and Probability. It is also for use with the further mathematics course. Based on the new group 5 aims, the progressive approach encourages cumulative learning. Features include: a dedicated chapter exclusively for mixed examination practice; plenty of worked examples; questions colour-coded according to grade; exam-style questions; feature boxes throughout of exam hints and tips and calculator skills sheets to support students in using their Casio or Texas calculators.

This title forms part of the completely new Mathematics for the IB Diploma series. This highly illustrated book covers topic 10 of the IB Diploma Higher Level Mathematics syllabus, the optional topic Discrete Mathematics. It is also for use with the further mathematics course. Based on the new group 5 aims, the progressive approach encourages cumulative learning. Features include: a dedicated chapter exclusively for mixed examination practice; plenty of worked examples; questions colour-coded according to grade; exam-style questions; feature boxes throughout of exam hints and tips.

This title forms part of the completely new Mathematics for the IB Diploma series. This highly illustrated book covers topic 9 of the IB Diploma Higher Level Mathematics syllabus, the optional topic Calculus. It is also for use with the further mathematics course. Based on the new group 5 aims, the progressive approach encourages cumulative learning. Features include: a dedicated chapter exclusively for mixed examination practice; plenty of worked examples; questions colour-coded according to grade; exam-style questions; feature boxes throughout of exam hints and tips.

A new series of Exam Preparation guides for the IB Diploma Mathematics HL and SL and Mathematical Studies. This exam preparation guide for the core content of the IB Diploma Mathematics Higher Level course breaks the course down into chapters that summarise material and present revision questions by exam question type, so that revision can be highly focused to make best use of students' time. Students can stretch themselves to achieve their best with 'going for the top' questions for those who want to achieve the highest results. Worked solutions for all the mixed and 'going for the top' questions are included, plus exam hints throughout. Guides for Mathematics Standard Level and Mathematical Studies are also available.

Written by experienced IB workshop leaders and curriculum developers, this book covers all the course content and essential practice needed for success in the Sets Option for Higher Level. Enabling a truly IB approach to mathematics, real-world context is thoroughly blended with mathematical applications, supporting deep understanding and instilling confident mathematical thinking skills. Exam support is integrated, building assessment potential. Complete worked solutions included. - Directly linked to the Oxford Higher Level Course Book, naturally extending learning - Drive a truly IB approach to mathematics, helping students connect mathematical theory with the world around them - The most comprehensive, accurate match to the most recent syllabus, written by experienced workshop leaders - Build essential mathematical skills with extensive practice enabling confident skills-development - Cement assessment potential, with examiner guidance and exam questions driving confidence in every topic - Thoroughly integrate TOK and support complex mathematical thinking skills - Complete worked solutions included free online
