Morphology is the study of words.

Morphemes are the minimal units of words that have a meaning and cannot be subdivided further. There are two main types: free and bound. Free morphemes can occur alone and bound morphemes must

Intro to Linguistics { Morphology

In linguistics, morphology is the study of words, how they are formed, and their relationship to other words in the same language. It analyzes the structure of words and parts of words, such as stems, root words, prefixes, and suffixes. Morphology also looks at parts of speech, intonation and
