Introducing the Freud Wars eBook by Stephen Wilson ...

If Roger Scruton could label Freud a perverted paedophile whilst other equally erudite academics can't praise him enough it would appear that the man has fooled many and not just the gullible. Stephen Wilson attempts to deconstruct some of the more demonized myths and cut to the heart of a red-hot debate

Introducing The Freud Wars: A Graphic Guide

the freud wars are the debates surrounding the iconic and infamous psychoanalyst sigmund freud this graphic guide investigates whether freud was a psychological genius or simply a man deluded by drugs

Compact INTRODUCING guide on the debates surrounding psychoanalysis's most contested figure. Freud is universally recognised as a pivotal figure in modern culture. Yet the man and his work continually attract scandal, outrage and scientific suspicion. Was he a psychological genius or a peddler of humbug? Despite his atheism, did he invent a new religious cult? Is he to blame for disguising the prevalence of sexual abuse? Is there an Oedipus Complex? Was he a drug addict? A wittily illustrated glimpse behind the demonised myths to the heart of a red-hot debate.

Introducing

The Freud Wars offers a comprehensive introduction to the crucial question of the justification of psychoanalysis. Part I examines three powerful critiques of psychoanalysis in the context of a recent controversy about its nature and legitimacy: is it a bankrupt science, an innovative science, or not a science at all but a system of interpretation? The discussion makes sense of the entrenched disagreement about the validity of psychoanalysis, and demonstrates how the disagreement is rooted in the theoretical ambiguity of the central concept of psychoanalysis, the unconscious. This ambiguity is then presented as the pathway to a new way of understanding psychoanalysis, based on a mode of thinking that precedes division into mental and physical. The reader is drawn into a lively and thought-provoking analysis of the central issues: • what would it mean for psychoanalysis to count as a science? • is psychoanalysis a form of hermeneutics? • how can mental and physical explanations coincide? Part II contains the source material for Part I: the influential critiques of psychoanalysis by Adolf Grünbaum, Thomas Nagel and Jürgen Habermas. No specialised knowledge is assumed, and the book is clear and accessible while still conveying the complexity and richness of the subject. It provides a fascinating introduction to philosophical thinking on psychoanalysis for students and practitioners of psychoanalysis, psychotherapy and philosophy.

This book addresses the chief accusations leveled against Freud and the oppositions to his discoveries.

The Freud Wars offers a comprehensive introduction to the crucial question of the justification of psychoanalysis. Part I examines three powerful critiques of psychoanalysis in the context of a recent controversy about its nature and legitimacy: is it a bankrupt science, an innovative science, or not a science at all but a system of interpretation? The discussion makes sense of the entrenched disagreement about the validity of psychoanalysis, and demonstrates how the disagreement is rooted in the theoretical ambiguity of the central concept of psychoanalysis, the unconscious. This ambiguity is then presented as the pathway to a new way of understanding psychoanalysis, based on a mode of thinking that precedes division into mental and physical. The reader is drawn into a lively and thought-provoking analysis of the central issues: * what would it mean for psychoanalysis to count as a science? * is psychoanalysis a form of hermeneutics? * how can mental and physical explanations coincide? Part II contains the source material for Part I: the influential critiques of psychoanalysis by Adolf Grünbaum, Thomas Nagel and Jürgen Habermas. It provides a fascinating introduction to philosophical thinking on psychoanalysis for students and practitioners of psychoanalysis, psychotherapy and philosophy.

This book brilliantly explains Klein's work, describing the startling discoveries that raised such opposition at the time. Now Klein's ideas are being recognized for their explanatory power, and her concepts of the depressive and paranoid-schizoid positions are in common usage.

Richard Appignanesi goes on a personal quest of Existentialism in its original state. He begins with Camus' question of suicide: 'Must life have a meaning to be lived?' Is absurdity at the heart of Existentialism? Or is Sartre right: is Existentialism 'the least scandalous, most technically austere' of all teachings? This brilliant Graphic Guide explores Existentialism in a unique comic book-style.

A bold new edition of this bestselling Graphic Guide to commemorate Marx's 200th birthday.

This title is now available in a new format. Refer to Jung: A Graphic Guide 9781848310100.
