Jonah. (dove), the fifth of the minor prophets, was the son of Amittai, and a native of Gath-hepher. (2 Kings 14:25) He flourished in or before the reign of Jeroboam II., about B.C. 820. Having already, as it seems, prophesied to Israel, he was sent to Nineveh. The time was one of political revival in Israel; but ere long the Assyrians were to be employed by God as a scourge upon them.

A refugee from post –World War II Europe who immigrated to the US in 1949, Jonas Mekas (1922–2019) became one of America's foremost champions of independent cinema and one of its most innovative filmmakers. An admired poet in his native Lithuania, Mekas began recording his life on film shortly after his arrival in New York. Through his work as the author of the Village Voice ' s " Movie Journal " column, editor of Film Culture magazine, and founder of Anthology Film Archives and the Film-Makers ' Cooperative, Mekas played a vital role in the promotion of avant-garde and independent films. His early films, Guns of the Trees and The Brig, challenged the structure of traditional narrative filmmaking. He is best known for his " diary films, " including Walden (Diaries, Notes, and Sketches); Reminiscences of a Journey to Lithuania; and As I Was Moving Ahead Occasionally I Saw Brief Glimpses of Beauty. His films, writings, and the institutions he built have influenced generations of filmmakers, poets, artists, musicians, critics, and scholars. In Jonas Mekas: Interviews, volume editor Gregory R. Smluewicz-Zucker collects eighteen interviews covering almost sixty years of the filmmaker ' s career. Mekas discusses his remarkable life as a refugee from Nazi- and Soviet-occupied Lithuania, his role as one of the major figures in the development of the American avant-garde, and his thoughts about his own work. In conversation with scholars, journalists, and other prominent artists, Mekas speaks of his passion for artistic expression and uncompromising vision for a liberated cinema. These interviews preserve Mekas ' s voice so that it might speak to future generations of artists and intellectuals.

Meyler's Side Effects of Drugs: The International Encyclopedia of Adverse Drug Reactions and Interactions, Sixteenth Edition builds on the success of the 15 previous editions, providing an extensively reorganized and expanded resource that now comprises more than 1,500 individual drug articles with the most complete coverage of adverse reactions and interactions found anywhere. Each article contains detailed and authoritative information about the adverse effects of each drug, with comprehensive references to the primary literature, making this a must –have reference work for any academic or medical library, pharmacist, regulatory organization, hospital dispensary, or pharmaceutical company. The online version of the book provides an unparalleled depth of coverage and functionality by offering convenient desktop access and enhanced features such as increased searchability, extensive internal cross-linking, and fully downloadable and printable full-text, HTML or PDF articles. Enhanced encyclopedic format with drug monographs now organized alphabetically Completely expanded coverage of each drug, with more than 1,500 drug articles and information on adverse reactions and interactions Clearer, systematic organization of information for easier reading, including case histories to provide perspective on each listing Extensive bibliography with over 40,000 references A must –have reference work for any academic or medical library, pharmacist, regulatory organization, hospital dispensary, or pharmaceutical company

The Side Effects of Drugs Annual was first published in 1977. It has been published continuously since then, as a yearly update to the encyclopaedic volume Meyler's Side Effects of Drugs. Each new Annual provides clinicians and medical investigators with a reliable and critical yearly survey of new data and trends in the area of Adverse Drug Reactions and Interactions. An international team of specialists have contributed to the Annuals by selecting critically from each year's publications all that is truly new and informative, by critically interpreting it, and by pointing out whatever is misleading. The use of the book is enhanced by separate indexes, allowing the reader to enter the text via the drug name, adverse effect, or drug interaction. Special features of the Annuals are the Side Effects of Drugs Essay, usually written by a guest author, and the special reviews: short articles, within the different chapters, that give extra attention to topics of current interest. The Essay in Annual 26 is entitled "How safe is cannabis?" (by Professor L.L. Iversen) and there is a Historical Essay entitled "From thalidomide to pharmacovigilance: a personal account" (by Professor D.J. Finney). The special reviews in this volume include, among others: The cognitive effects of Ecstasy Antipsychotic drugs and weight gain Vigabatrin-related visual abnormalities Managing the adverse effects of morphine The cardiotoxic effects of antihistamines Inhaled corticosteroids and growth inhibition in children Bioterrorism and its prevention through immunization

Encounters With Archetypes integrates the study of archetypes with the concept of encounters. This unit, developed by Vanderbilt University's Programs for Talented Youth, is aligned to the Common Core State Standards and features accelerated content, creative products, differentiated tasks, engaging activities, and the use of in-depth analysis models to develop sophisticated skills in the language arts. Through the lens of encounter, students will examine the patterns, symbols, and motifs associated with common archetypes by analyzing fictional and informational texts, speeches, and visual media. Students will follow various archetype encounters with conflicts and challenges to explore questions such as " How do archetypes reflect the human experience? " and " How do archetypes reveal human strengths and weaknesses?" Ideal for gifted classrooms or gifted pull-out groups, the unit features texts from Sandra Cisneros, Louis Untermeyer, Rudyard Kipling, Emily Dickinson, and Maya Angelou; biographies of Oprah Winfrey, Mother Teresa, Jackie Robinson, Sally Ride, and Lin-Manuel Miranda; a speech from President Ronald Reagan; a novel study featuring Wonder by R. J. Palacio and/or Counting by 7s by Holly Goldberg Sloan; and art from Pieter Bruegel. Grades 4-5

This volume is a collection of papers presented at the International Symposium held in Montreal August 1988 as part of the 27th Annual Conference of Metallurgists, co-sponsored by the Canadian Steel Industry Research Association, the Canadian Continuous Steel Casting Research Group and the Canadian Institute of Mining and Metallurgy. Four topic areas are covered in the presentations: (1) casting practice and billet quality for direct rolling and hot charging; (2) temperature equalization methods and equipment; (3) surface quality and sensors and (4) mechanical handling of billets for direct rolling and charging.
