In 1938, seven-year-old Eva Schlesinger is put aboard a train filled with other Jewish children and carried away from Nazi Germany in a little-known rescue operation called "Kindertransport". More than four decades later, she had become a quintessential Englishwoman who hides her origins from everyone, including her own daughter. Here in Kindertransport her past and present collide. We see the terrified child who possesses only two gold rings and a Star of David hidden in the heel of her shoe to link her to the parents she left behind. And we watch the grown woman who had tried to forget the Kindertransport at the moment when her daughter discovers a storage box of papers. As her daughter questions her, a shattering truth emerges about Eva's identity, the true cost of survival, and the future that grows out of a traumatized past.

Tells the stories--in their own words--of several of the thousands of Jewish children rescued from Nazi Germany between 1938 and 1940 and brought to new homes in the United Kingom. Memoir pieces, poems, photographs, and other primary sources bring their stories to life in digital format.

A timely study of the effects of family separation on child refugees, using newly discovered archival sources from the WWII era: "Highly recommended." —Choice The Kindertransport—an organized effort to extract children living under the threat of Nazism—lives in the popular memory as well as in literature as a straightforward act of rescue and salvation, but these celebratory accounts leave little room for a deeper, more complex analysis. This volume reveals that in fact many children experienced difficulties with settlement: they were treated inconsistently by refugee agencies, their parents had complicated reasons for giving them up, and their caregivers had a variety of motives for taking them in. Against the grain of many other narratives, Jennifer Craig-Norton emphasizes the use of newly discovered archival sources, which include the correspondence of refugee agencies, carers, Kinder and their parents, and juxtaposes this material with testimonial accounts to show readers a more nuanced and complete picture of the Kindertransport. In an era in which the family separation of refugees has commanded considerable attention, this book is a timely exploration of the effects of family separation as it was experienced by child refugees in the age of fascism.

This volume examines the Kindertransport to Britain 1938/39. The seventeen contributions provide various new perspectives, which are investigated for the first time in this volume. Further contributions include a comparative study of Kindertransportees and evacuees, an article on therapeutic work with former Kindertransportees and reports on various memorial and cultural pr.

In November 1938 on The Night of the Broken Glass, the Jewish people of Germany are terrified as Hitler's men shatter their store windows, steal and destroy their belongings, and arrest many Jewish fathers and brothers. Parents fear for their own lives but their focus is on protecting their children. When England arranges to take the children out of Germany by train, the Kindertransport is organized and parents scramble to get places on the trains for their young family members, worried about what the future will hold. Soon, trains filled with Jewish children escaping the Nazis chug over the border into Holland, where they are ferried across the English Channel to England and to freedom. But for Peter, the shy violin player, his sister Becca, and his friends Stephen and Hans, life in England holds challenges as well. Peter's friend Eva, who did not get a seat on the Kindertransport, is left to the evil plans of Hitler. Peter, working his musician's hands raw at a farm in Coventry, wonders if they should have stayed and fought back instead of escaping. When the Coventry farm is bombed and Nazis have reached England, Peter feels he has nothing left. He decides it's time to stand and fight Hitler. Peter returns to Germany to join the Jewish underground resistance, search for the mother and sister he left behind in Berlin, and rescue his childhood friend Eva.

A deeply moving memoir that confronts the defining trauma of the twentieth century, and its effects on a father and son. In 1939, Jonathan Lichtenstein's father Hans escaped Nazi-occupied Berlin as a child refugee on the Kindertransport. Almost every member of his family died after Kristallnacht, and, upon arriving in England to make his way in the world alone, Hans turned his back on his German Jewish culture. Growing up in post-war rural Wales where the conflict was never spoken of, Jonathan and his siblings were at a loss to understand their father's relentless drive and sometimes eccentric behavior. As Hans enters old age, he and Jonathan set out to retrace his journey back to Berlin. Written with tenderness and grace, The Berlin Shadow is a highly compelling story about time, trauma, family, and a father and son's attempt to emerge from the shadows of history.

Sibert Honor author, Deborah Hopkinson, illuminates the true stories of Jewish children who fled Nazi Germany, risking everything to escape to safety on the Kindertransport.

A young readers' edition of an important and inspiring true story of hope and survival during World War II. Fourteen-year-old Lisa Jura was a musical prodigy who hoped to become a concert pianist. But when Hitler's armies advanced on pre-war Vienna, Lisa's parents were forced to make a difficult decision. Able to secure passage for only one of their three daughters through the Kindertransport, they chose to send gifted Lisa to London for safety. As she yearned to be reunited with her family while she lived in a home for refugee children on Willesden Lane, Lisa's music became a beacon of hope. A memoir of courage and the power of music to uplift the human spirit, this compelling tribute to one special young woman and the lives she touched will both educate and inspire young readers.

This important book tells the story of how ten thousand Jewish children were rescued out of Nazi Europe just before the outbreak of World War 2. They were saved by the Kindertransport — a rescue mission that transported the children (or Kinder) from Nazi-ruled countries to safety in Britain. The book includes real-life accounts of the children and is illustrated with archival photographs, paintings of pre-war Nazi Germany by artist, Hans Jackson, and original art by the Kinder commemorating their rescue.
