Are you tired of the same old stuff (S.O.S.)? Do you long for something fresh and exciting? Then perhaps this book is for you. It takes a no-nonsense look at what is really happening. It addresses the issues you and I are facing right now.

Our current students are digital natives, born into a world of widespread online sharing. Aligning the technologies we use in our courses with their skills and approaches to collaborative learning is an opportunity we should take. The new media share text, images, audio and video material rapidly and interactively. This volume will provide an overview of these new social media including Skype, YouTube, Flickr, blogging, LinkedIn, Facebook, and Twitter. Examples and cases of how instructors around the world are meaningfully incorporating them into their management, marketing, and other business courses are provided. One of the more robust trends is the use of three-dimensional immersive virtual world interfaces for teaching and learning. The leading one is Second Life. Examples of the use of Second Life in business courses will be discussed. The use of wikis to foster collaborative development of course related material by learners will be presented with case examples. Faculty members are co-creators of course content with their learners. Among the topics covered is how faculty members can be supported in their deployment of social media projects and course structures. How social media can enable the structuring of course activities involving students, prospective students, alumni, employers, businesspersons, and others in rich sharing and support with each other will be discussed. Indeed seeing courses as networking venues beyond learning forums will be parsed.

Are you tired of the same old stuff (S.O.S.)? Have you heard enough about the "New Age"? Do you long for something fresh and exciting? Then perhaps this book is for you. It's not about the same old tired reality that's been talked about for decades. It's not a sugar-coated, love and light routine. And it's not another "feel-good" manual or "how to succeed without really trying" rehash. It's not psycho babble, quick fix therapy, preaching or lamenting a cause. This book takes a no-nonsense look at what is really happening — behind the scenes, above the scenes and beyond the scenes. It addresses the issues you and I are facing right now and will be facing for a long time to come. It uses the past only as a springboard for stepping into the unknown, into the big picture. It exposes the lies, coverups, deceit, control and manipulation that have

kept the people of Earth locked into rigid systems of dogma and despair. But it also offers real solutions that are timely, and yet, timeless. It gives you ideas that can help you put the pieces of the cosmic jigsaw together. And practical advice that can stimulate your creative juices. Get out your surfboard and ride the cutting edge!

This is a book of reflections that aims to help you think, a compendium of both technical training and autodidactic humanism. That humanism suggests building a culture of constant improvement and renewal as a long-term strategy not only in times of crisis, but also in times of growth. It is a book that is based on everyday life experience. It is not an academic text, but a book of reflections that aims to help you think and act. We do hope that it is useful to you and that it will positively impact you. We are not facing complex times, but an exciting time, in which our great opportunity has not come yet. One way or another, all ages have been very difficult. You just need some historical perspective to realize that we now have the best technology, the best communication between humans and great knowledge of each other.

The Aurora Award-winning author of the Man of His Word novels returns to the magical realm of Pandemia with the first in his Handful of Men series. For fifteen years, Queen Inos and King Rap—the former stable boy and secret sorcerer—have ruled Krasnegar wisely and happily, raising a family and prospering in their remote little kingdom. But a darkness is encroaching, foreshadowed by prophecies of unimagined cataclysms across Pandemia. Prince Emshandar, better known as Shandie to Krasnegar's royal family, is engaged in several conflicts along the Empire's borderlands, as armies of djinns, gnomes, and other races declare and wage war. His grandfather, the aged emperor himself, continues to behave more erratically and tyrannically with each passing hour. Rap dismisses the warnings as superstitious nonsense and the borderland battles as far from home and none of his kingdom's affair. But on the night of the birth of his fourth child, Rap is visited by a god who regales him with a cryptic tale of Pandemia's impending doom. Once upon a time, a young sorcerer made an error, an error that now threatens to nullify the Protocol, the treaty that has controlled the use of magic for a millennium. Without the Protocol, the realm will fall into chaos and certain destruction—unless Rap embarks on a dangerous quest to right his long ago wrong . . . The beginning of a new series by the author of the Seventh Sword novels and many other acclaimed works of fantasy, *The Cutting Edge* is "deftly woven and set forth with a refreshingly unpretentious clarity and directness: imagine David Eddings rewritten by Kate Wilhelm. Grab this one" (Kirkus Reviews).

The weather in Moscow is good, there's no cholera, there's also no lesbian love...Brrr! Remembering those persons of whom you write me makes me nauseous as if I'd eaten a rotten sardine. Moscow doesn't have them--and that's marvellous."  
—Anton Chekhov, writing to his publisher in 1895 Chekhov's barbed comment suggests the climate in which Sophia Parnok was writing, and is an added testament to the strength and confidence with which she pursued both her personal and artistic life. Author of five volumes of poetry, and lover of Marina Tsvetaeva, Sophia Parnok was the only openly lesbian

voice in Russian poetry during the Silver Age of Russian letters. Despite her unique contribution to modern Russian lyricism however, Parnok's life and work have essentially been forgotten. Parnok was not a political activist, and she had no engagement with the feminism vogueish in young Russian intellectual circles. From a young age, however, she deplored all forms of male posturing and condescension and felt alienated from what she called patriarchal virtues. Parnok's approach to her sexuality was equally forthright. Accepting lesbianism as her natural disposition, Parnok acknowledged her relationships with women, both sexual and non-sexual, to be the centre of her creative existence. Diana Burgin's extensively researched life of Parnok is deliberately woven around the poet's own account, visible in her writings. The book is divided into seven chapters, which reflect seven natural divisions in Parnok's life. This lends Burgin's work a particular poetic resonance, owing to its structural affinity with one of Parnok's last and greatest poetic achievements, the cycle of love lyrics *Ursa Major*. Dedicated to her last lover, Parnok refers to this cycle as a seven-star of verses, after the seven stars that make up the constellation. Parnok's poems, translated here for the first time in English, added to a wealth of biographical material, make this book a fascinating and lyrical account of an important Russian poet. Burgin's work is essential reading for students of Russian literature, lesbian history and women's studies.

This is a city that seduces dreamers . . . then eats their dreams. Matthew Scudder understands the futility of his search for a longtime missing Midwestern innocent who wanted to be an actress in the vast meat-grinder called New York City. But her frantic father heard that Scudder is the best—and now the ex-cop-turned-p.i. is scouring the hell called Hell's Kitchen looking for anything that might resemble a lead. And in this neighborhood of the lost, he's finding love—and death—in the worst possible places.

A helicopter crash alters a Coast Guard rescue swimmer's life forever in *Cutting Edge*, a suspense thriller by USA Today bestselling author Ward Larsen Trey DeBolt is a young man at the crest of life. His role as a Coast Guard rescue swimmer in Alaska offers him a rewarding job and limitless adventure. Then a tragic accident alters his life: during a harrowing rescue, his helicopter goes down. Severely injured, DeBolt awakens in a seaside cabin in Maine, thousands of miles from where the accident occurred. His lone nurse lets slip that he has been officially declared dead, lost in the crash. Back in Alaska, however, Coast Guard investigator Shannon Lund uncovers evidence that DeBolt might still be alive. Her search quickly becomes personal, but before she can intervene, chaos erupts outside a cabin in the wilds of Maine. The nurse who has been treating DeBolt is brutally killed by military-trained assassins. DeBolt is only saved when a bizarre vision guides him to safety. Soon other images appear, impossible revelations that are unflinching in their accuracy. As he runs for his life, DeBolt discovers he has been drawn into an ultra-secret government project. The power it bestows is boundless, both a gift and a curse. Yet one thing is certain: Trey DeBolt has abilities no human has ever known.
