Do you believe it's possible to be happier than you have ever been before? Not for fleeting moments, but consistently? Bestselling author Matthew Kelly believes it is possible-and in his latest book, *The Biggest Lie*, he explains how. We all want to be happy and live life to the fullest, but the answer isn't found in the world's definition of happiness. Modern culture is constantly feeding us lies, and these lies affect you more than you know. The lies that affect you the most, however, are the ones you tell yourself. These lies steal your joy, sap your energy, and cause you to lose hope. They prevent you from discovering the kind of vibrant faith the first Christians experienced. But as Matthew Kelly shows, we've arrived at a crucial moment in history. People are disillusioned with what the world offers. The world is in desperate need of change, and no one is in a better position to effect that change than Christians. We have an incredible opportunity to dispel the lies and cut through the confusion and false promises around us. This book provides the practical tools necessary to help you regain your fervor and leave your mark on the world-and experience more happiness than you thought possible. Together we can change the course of history-with humility, generosity, kindness, and joy, one Holy Moment at a time.

Your wife in return for the secrets you never knew - A powerful literary thriller in the vein of David Lynch It is early September 2002 and Niklas Kalf, a German writer, is in New York for the first time. He has just published a biography of a Jewish-German physicist named Eugen Meerkaz, who emigrated to the USA in the late 1930s. Niklas is accompanied by his wife Liz, who is several months pregnant. The hot NY summer and the first anniversary of the World Trade Center catastrophe weigh heavily on the city. On

the morning of their third day in the place, Liz is kidnapped. In return for her release her anonymous captor demands information on secret experiments that Meerkaz has supposedly conducted - information Niklas does not have. In desperation, he re-examines every fact about the scientist and every document in his possession and comes up with one faint lead - a letter addressed to Meerkaz's widow Elsa by a German soldier and postmarked in Marfa, TX. Niklas embarks on an unpredictable journey to this reclusive part of Texas, where he discovers secret links to an occultist group. Fearless, the young writer digs deeper and deeper, but nothing can prepare him for what he is going to find and the real identity of his enemies - who know no mercy . . . Runner-up for the German Book Prize 2006, *What We Are Made Of* is a palpable literary thriller that will hit you with the intensity and relentlessness of David Lynch and Quentin Tarantino.

The Mazda Miata is one of the most popular sports cars on the road today. In production for more than 20 years, the Miata 's popularity has grown, and the number of aftermarket components available to the Miata enthusiast has grown, too. This immense selection of parts has made it difficult for many would-be modifiers to choose the proper combination that will help them reach the goals they have set for their two-seaters. Author and Miata expert Keith Tanner has been modifying, repairing, building, and racing Miatas for years, and he will guide you through how to best modify your car to suit your needs, starting with an explanation on how everything works and how the various parts will interact. You'll not only learn what upgrades will help you reach your goals, but also how to adjust or modify what you have to make your car work at its best. From autocross to cross-country touring, the Miata can do it all. Keith Tanner tells you how to make it happen!
