A revealing, no-holds-barred portrait of the legendary Eileen Ford—the entrepreneur who transformed the business of modeling and helped invent the celebrity supermodel. Working with her husband, Jerry, Eileen Ford created the twentieth century's largest and most successful modeling agency, representing some of the fashion world's most famous names—Suzy Parker, Carmen Dell'Orefice, Lauren Hutton, Rene Russo, Christie Brinkley, Jerry Hall, Christy Turlington, and Naomi Campbell. Her relentless ambition turned the business of modeling into one of the most glamorous and desired professions, helping to convert her stable of beautiful faces into millionaire superstars. Model Woman chronicles the Ford Modeling Agency's meteoric rise

to the top of the fashion and beauty business, and paints a vibrant portrait of the uncompromising woman at its helm in all her glittering, tyrannical brilliance. Outspoken and controversial, Ford was never afraid to offend in defense of her stringent standards. When she chose, she could deliver hauteur in the grand tradition of fashion's battle-axes, from Coco Chanel to Diana Vreeland—just ask John Casablancas or Janice Dickinson. But she was also a shrewd businesswoman with a keen eye for talent and a passion for serving her clients. Drawing on more than four years of intensive interviews with Ford and her intimates, associates, and rivals, as well as exclusive access to agency documents and memorabilia, Robert Lacey weaves an unforgettable tale of a determined entrepreneur and the empire she built—a

This monograph summarizes the literature on AI and business model innovation. The main hypothesis is that the deployment of AI across an industry creates new mechanisms for value creation and in turn results in new firms generating value in an industry as incumbent firms may no longer be competitive as in the past - the value migration phenomenon.

I am so ugly, millions of women will think, looking at themselves in the mirror. Many of us are dissatisfied with our looks and feel as if they will have to put up with their imperfections for the rest of their lives. But it is possible to change the situation. This book is not a set of psychological rules to improve self-esteem. The author invites the women

who doubt their own beauty to find the root of the problem and gives some tips on how to get rid of negative attitudes, without the help of a psychologist. All recommendations are based on personal experience.

A rare analytical look at the financial crisis using simple analysis The economic crisis that began in 2008 revealed the numerous problems in our financial system, from the way mortgage loans were produced to the way Wall Street banks leveraged themselves. Curiously enough, however, most of the reasons for the banking collapse are very similar to the reasons that Long-Term Capital Management (LTCM), the largest hedge fund to date, collapsed in 1998. The Crisis of Crowding looks at LTCM in greater detail, with new

information, for a more accurate perspective, examining how the subsequent hedge funds started by Meriwether and former partners were destroyed again by the lapse of judgement in allowing Lehman Brothers to fail. Covering the lessons that were ignored during LTCM's collapse but eventually connected to the financial crisis of 2008, the book presents a series of lessons for hedge funds and financial markets, including touching upon the circle of greed from homeowners to real estate agents to politicians to Wall Street. Guides the reader through the real story of Long-Term Capital Management with accurate descriptions, previously unpublished data, and interviews Describes the lessons that hedge funds, as well as the market, should have learned from LTCM's collapse Explores how the financial crisis and LTCM

Also included are a layman's guide to the Dodd-Frank rules and what it means for the future, as well as an evaluation of the Fed's reaction to the crisis, QE1, QE2, and QE3.

An incisive, beautifully written first novel by a former supermodel that explores the glamorous and gritty world she inhabited. Only a handful of women in the world have experienced what Paulina Porizkova has--being whisked away to model in Paris while still a teenager, reaching the pinnacle of the profession before her schoolmates had even graduated--and fewer still have the insight to capture it on paper. In her first novel, Paulina tells the story of Jirina. A tall, scrawny fifteen-year-old girl from Sweden, she's much more accustomed to taunts and disdain than admiration and affection, whether from her classmates or her own family. That all changes when her only friend, Hatty, asks to practice her makeup and photography skills on Jirina. Almost before

she knows it Jirina is on a plane to Paris, where she will spend the summer in a milieu entirely alien to her. Living at the home of her modeling agency's owner and constantly subjected to blunt physical assessments, catty and often cruel fellow models, and womanizing photographers--and, miraculously enough, while sometimes feeling truly beautiful--Jirina embarks on a journey beyond her wildest imaginings. Between photo shoots in Italy and Morocco and parties with models and musicians, Jirina manages to make a few friends, fall in love, and, eventually, feel the very adult pain of betrayal and heartbreak. Told with the grace, simplicity, and accuracy that can only come from real-life experience, *A Model Summer* is both the debut of a notably talented novelist and an unusually well-informed look behind

the scenes at a world many people fantasize about, but few really know.

At age seventeen, Gia Carangi was working the counter at her father's Philadelphia luncheonette, Hoagie City. Within a year, Gia was one of the top models of the late 1970's, gracing the covers of Cosmopolitan and Vogue, partying at New York's Studio 54 and the Mudd Club, and redefining the industry's standard of beauty. She was the darling of moguls and movie stars, royalty and rockers. Gia was also a girl in pain, desperate for her mother's approval—and a drug addict on a tragic slide toward oblivion, who started going directly from \$10,000-a-day fashion shoots to the heroin shooting galleries on New York's Lower East Side. Finally blackballed

from modeling, Gia entered a vastly different world on the streets of New York and Atlantic City, and later in a rehab clinic. At twenty-six, she became one of the first women in America to die of AIDS, a hospital welfare case visited only by rehab friends and what remained of her family. Drawing on hundreds of interviews with Gia's family, lovers, friends, and colleagues, *Thing of Beauty* creates a poignant portrait of an unforgettable character—and a powerful narrative about beauty and sexuality, fame and objectification, mothers and daughters, love and death.
