Mercedes-Benz 'Fintail' Models charts the development of the W110, W111 and W112 'Fintail' (or 'Heckflosse') series, the line that helped revive the Mercedes-Benz brand in the post-war years. With a unique combination of exceptional engineering and a timeless beauty, even the most basic of these vehicles has a charm that is difficult to find in the majority of cars today. After outlining the company's history, the book looks at the development of the first of the 'Fintail' models - the W111- and its launch at the 1959 Frankfurt Show. It also looks at the closely related 1.9 litre W110 and 3.0 litre W112 models, with the vehicles sold in the German, US and UK markets covered in detail. Relating the complete story of the Mercedes-Benz 'Fintail' models from the 1950s to 1970s, it provides an ideal resource for research before restoration, or for detailing existing show cars. Gives background to development, a full production history and comprehensive specification details for all models. Superbly illustrated with 357 colour photographs including period and advertising images sourced from the Mercedes-Benz factory in Stuttgart.

rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. When it comes to being a good mom in today's culture, the bar is set embarrassingly low, especially when compared to God's standard. Mere survival is seen as a badge of honor and hanging on 'til "wine-o'clock" a goal to be strived for. As a daughter of Christ, you have been called to be more than an average mom. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. M is for Mama offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mom, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.

A hilarious and hopeful primer to prevent, combat, and eliminate the suckage in modern marriage by doing it right in the early years, from one of the minds behind the series Sex and the City and the New York Times bestselling authors of He ' s Just Not That Into You, It ' s Called a Breakup Because It ' s Broken, and It ' s Just a F***ing Date Some marriages start out storybook. Perfect proposal, perfect engagement, perfect wedding, perfect honeymoon, and perfect newlywed years. Greg Behrendt and Amiira Ruotola stumbled right out of the wedding gate. Their choices in the early years, they ' ll tell you, nearly bought their marriage a one-way ticket to Suckville. The New York Times bestselling authors explore all the adventures of early wedlock, from the moment one of you gets on one knee to the day when sex starts to feel like work instead of play. In this guidebook, Behrendt and Ruotola explore their own marriage and, with gleeful candor, tremendous warmth, sharp humor, and piercing insight, look at what we who have decided to " settle down " hope to get out of our most lasting relationship. We venture through volumes on the engagement, wedding planning, the Big Day, the wedding hangover, the (blissful?) first year, the hard work of marrying two lives, fights, and

sex-pectations versus sex-pectreality. The perfect book for those who have just put a ring on it or are thinking of putting a ring on it, Behrendt and Ruotola ' s work is a brilliant guide for the first stretch of that wild ride we call marriage.

As the complexity of automotive vehicles increases this book presents operational and practical issues of automotive mechatronics. It is a comprehensive introduction to controlled automotive systems and provides detailed information of sensors for travel, angle, engine speed, vehicle speed, acceleration, pressure, temperature, flow, gas concentration etc. The measurement principles of the different sensor groups are explained and examples to show the measurement principles applied in different types.
