When Americans think of modern warfare, what comes to mind is the US army skirmishing with terrorists and insurgents in the mountains of Afghanistan. But the face of global conflict is ever-changing. In Out of the Mountains, David Kilcullen, one of the world's leading experts on current and future conflict, offers a groundbreaking look at what may happen after today's wars.

Out of the Mountains: The Coming Age of the Urban ...

But the face of global conflict is ever changing. In Out of the Mountains, David Kilcullen, one of the world's leading experts on current and future conflict, offers a groundbreaking look at what may happen after today's wars end. This is a book about future conflicts and future cities, and about the challenges and opportunities that four powerful megatrends—population, urbanization, coastal settlement, and connectedness—are creating across the planet.

November 4, 2013. . In his latest book, Out of the Mountains: The Coming Age of the Urban Guerrilla, David Kilcullen, the Australian counterinsurgency expert, attempts to formulate a unified theory of irregular warfare. Kilcullen's study is both timely and relevant. Covering contemporary global trends in counterinsurgency, the Arab Spring, urban planning, militia tactics, transnational criminal networks and other related topics, Kilcullen provides insightful analysis of current and ...

Out of the Mountains: The Coming Age of the Urban Guerrilla

In the parlance of the U.S. Army, Dr. David Kilcullen's new book Out of the Mountains is commendably "high speed, low drag." In addition to its brisk pace, organization and effective writing, it is also a positively provocative and cogent work of depth that describes a projection of future conflict that is grim, gritty, and one for which all governments need to be far

out of the mountains the coming of the urban guerrilla For ...

Description. In his third book, David Kilcullen takes us out of the mountains: away from the remote, rural guerrilla warfare of Afghanistan, and into the marginalised slums and complex security threats of the world's coastal cities, where almost 75 per cent of us will be living by mid-century. Scrutinising major environmental trends — population growth, coastal urbanisation — and increasing digital connectivity, he projects a future of feral cities, urban systems under stress, and ...
