An important element in people photography is knowing your subjects well enough to be able to anticipate what they are going to do. It's the only way you are going to be able to get pictures of it....

People and Portrait Photography Tips -- National Geographic

When photographing people candidly (which is my preferred style as it won't distract anyone from the main event and produces more natural results) it's important not to use flash at all where possible. This will result in some really nice, soft, shallow photos that work well. As a general rule, keep your use of flash to a bear minimum.

The Definitive Guide To Corporate Event Photography

All of your other settings should still be the same, as calculated above: Step 1: Adjust your camera to ISO800 and take a practice shot. This practice shot will most likely be dark. If it is,... Step 2: Increase your ISO one stop, or to the next larger value, such as ISO1200. Take another practice ...
