Provincetown, the 2019 photo book by Joel Meyerowitz, takes a closer look at the small seaside town on the northeasternmost tip of Cape Cod, Massachusetts in a series of images taken in the 1980s. Although the striking portraiture deviates from Meyerowitz's usual street photography, his depiction of Provincetown's LGBTQ scene provided - and continues to provide - a much-needed vision of hope and beauty in a time of crisis.

"Probing, jargon-free and written with the pace of a detective story... [Procter] dissects western museum culture with such forensic fury that it might be difficult for the reader ever to view those institutions in the same way again. " Financial Times 'A smart, accessible and brilliantly structured work that encourages readers to go beyond the grand architecture of cultural institutions and see the problematic colonial histories behind them.' - Sumaya Kassim Shoud museums be made to give back their marbles? Is it even possible to 'decolonize' our galleries? Must Rhodes fall? How to deal with the colonial history of art in museums and monuments in the public realm is a thorny issue that we are only just beginning to address. Alice Procter, creator of the Uncomfortable Art Tours, provides a manual for deconstructing everything you thought you knew about art history and tells the stories that have been left out of the canon. The book is divided into four chronological sections, named after four different kinds of art space: The Palace, The Classroom, The Memorial and The Playground. Each section tackles the fascinating, enlightening and often shocking stories of a selection of art pieces, including the propaganda painting the East India Company used to justify its rule in India; the tattooed Maori skulls collected as 'art objects' by Europeans; and works by contemporary artists who are taking on colonial history in their work and activism today. The Whole Picture is a much-needed provocation to look more critically at the accepted narratives about art, and rethink and disrupt the way we interact with the museums and galleries that display it.

"It's the epic love story of 2017."--Redbook

Academy Award-winning director Errol Morris turns his eye to the nature of truth in photography In his inimitable style, Errol Morris untangles the mysteries behind an eclectic range of documentary photographs. With his keen sense of irony, skepticism, and humor, Morris shows how photographs can obscure as much as they reveal, and how what we see is often determined by our beliefs. Each essay in this book is part detective story, part philosophical meditation, presenting readers with a conundrum, and investigates the relationship between photographs and the real world they supposedly record. Believing Is Seeing is a highly original exploration of photography and perception, from one of America's most provocative observers.
