Principles of finance with Excel.
Benninga, Simon. Finance is a topic
that requires much computation,
and in today's business world that
computation is done almost
entirely using Excel software.
Despite this, existing finance
textbooks continue to rely heavily
on hand calculators. Business
school students--whose
background in Excel software is
often weak when they come into
finance courses--find that when
they leave the academic
environment they have to relearn
both finance and the software.
