Despite some acknowledgement over the years of the significance of seeing children as rights holders, children's concerns continue to run the risk of not being considered political and mainstream: they continue to be viewed as extensions of adults or simply as members of families and communities. This when the reality is that children are citizens the minute they are born, and entitled to as much attention, if not more than adults, given their age and vulnerability. Concerned with the mainstreaming of children's interests in policy-making, this book raises such questions as: What is good governance vis-à-vis children? What are the standards and indicators? Can there be one answer for this question that is applicable to all countries? In order to arrive at a better understanding of what good governance for

children means and how the realization of the political, cultural, social and civil rights of children may be achieved, the book draws on the diverse and yet comprehensive body of knowledge that has developed over the years from initiatives taken by organisations across the world who work with policy makers to make governance systems more accountable and responsive to the well-being of children as citizens in themselves, simultaneously empowering children to take part in decision-making processes that impact their lives.

Cancer control is the term applied to the development of integrated population-based approaches to reduce the incidence and mortality from cancer and to minimize its impact on affected individuals and on the community. The integrated nature of cancer control is reflected in this multi-disciplinary text, the first in this rapidly developing field.

Achieving the Sustainable Development Goals through Finance, Technology and Law Reform Achieving the SDGs requires a fundamental rethink from businesses and governments across the globe. To make the ambitious goals a reality, trillions of dollars need to be harnessed to mobilise finance and accelerate progress towards the SDGs. Bringing together leaders from the World Bank, the financial and business sectors, the startup community and academia, this important, topically relevant volume explains what the SDGs are, how they came about and how they can be accelerated. Real-world case studies and authoritative insights address how to direct investment of existing financial resources and re-align the global financial system to reflect the SDGs. In depth chapters discuss how financial institutions, such as UBS Wealth Management, Manulife Asset Management and Moody's Rating Agency are supporting the SDGs. The opportunities arising from Blockchain, Big Data, Digital Identity and cutting-edge FinTech and RegTech applications are explored, whilst the relevance of sustainable and transparent global supply chains is underscored. Significant attention is paid to law reform which can accelerate progress of the SDGs through SME Financing, Crowdfunding, Peer-to-Peer Lending and tax restructuring. To achieve the 'World We Want', much needs to be done. The recommendations contained within this book are critical for supporting a fundamental shift in thinking from business and

governments around the world, and for building a more just and prosperous future for all.

In the wake of the AIDS pandemic, legions of organizations and compassionate individuals from faraway places descended on Africa to offer help and save lives. Ann Swidler and Susan Cotts Watkins vividly describe the often mismatched expectations and fantasies of altruists who dream of transforming lives, of the villagers who desperately seek help, and of the brokers on whom both Western altruists and impoverished villagers must rely. Based on years of fieldwork in the heavily AIDS-affected country of Malawi, this incisive, irreverent book digs into the sprawling AIDS enterprise and unravels the paradoxes of policy and practice. All who want to do good—from idealistic volunteers to world-weary development professionals—depend on brokers as guides, fixers, and cultural translators. The mutual misunderstandings among these players create all the drama of a romance: longing, exhilaration, disappointment, heartache, and sometimes an enduring connection. *A Fraught Embrace* unveils the tangled relations of those involved in the collective struggle to contain an epidemic.
