A truly comprehensive and laser-focused examination of a really wonderful, expressive art form. Understanding Caricature offers artists, aspiring artists, students, journalists, bloggers, etc. a lively guide to an old and respected art form. A great caricature is one that not only captures the subject's look and personality but amplifies them significantly. They are almost always funny and very often (but not always) mean spirited. Caricature is a form of portraiture and, while they share the same goal to tell the viewer something about the subject, a standard portrait is essentially reportage or a recitation of facts where the caricature is a wacky story. The portrait tends to depict the reality of the subject where the caricature exaggerates those details to heighten the appearance and (very often) to make a statement or point about the subject. Understanding Caricature takes an in-depth look at this specific sub-specialty of illustration using artwork from the author and as well dozens of practicing illustrators working today, with insights into the art and business of the genre.

Containing illustrations, this guide provides the techniques needed to master the art of caricature. It covers the fundamentals, to give the reader a foundation in caricature drawing techniques, with illustrations demonstrating how to put them into practice. It also includes information on: tools, equipment and props; and, shapes and proportions.

A contributor to MAD since its earliest years of the fabled Humor magazine, Mort Drucker is recognized throughout the art world as one of the greatest caricaturists of the twentieth century. He has won numerous awards and honors including the National Cartoonists Society's prestigious Reuben Award, the Will Eisner Hall of Fame Award, and an honorary Doctor of Fine Arts degree from the Art Institute of Boston. Drucker's most famous features are his movie and television satires. From The Godfather to Star Wars, and from Hulk Hogan to Woody Allen, he has captured our culture's most popular characters with one master stroke after another. Michael J. Fox once told Johnny Carson on The Tonight Show that he knew he had made it when Mort Drucker drew his caricature in MAD. And George Lucas personally traveled to Drucker's Long Island home to convince him to illustrate the poster for American Graffiti. Drucker's greatest MAD works are collected here for the first time ever, hand-picked by the artist himself. It is a celebration that has been more than 55 years in the making!
