Discover is a credit card brand issued primarily in the United States. It was introduced by Sears in 1985. When launched, Discover did not charge an annual fee and offered a higher-than-normal credit limit, features that were disruptive to the existing credit card industry. A subsequent innovation was "Cashback Bonus" on purchases. Most cards with the Discover brand are issued by Discover Bank, formerly the Greenwood Trust Company. Discover transactions are processed through the Discover Network.

Read about your skeleton, your bones, and your joints.

Aims to reveal why we are at it: discovering our ancestors; discovering where they lived; discovering what they did and why they did it. This work offers 52 ideas that get you started on your road to self discovery, with techniques, tricks and secrets from the genealogists.

This is a must-have book to study, learn and revise using various innovative techniques, including mind mapping. Teaching is often delivered in a way that best suits the learning style of those teaching rather than the recipient. This book provides a first step to understanding your own unique and most effective learning strategies. It includes illustrations on how to use and PowerPoint training tools. Easy to understand, comprehensive and rigorously tested. Includes: how to discover how you learn best; the importance of mind mapping - a powerful learning tool; and How to boost memory. The author introduces a range of strategies to achieve the goal of becoming a more effective learner, for example steps: select strategies and tips that appeal to you; try out each one, ideally a few times; evaluate their effectiveness (see whether they work); practise the ones that work; and savour your success! Part one of the book deals with understanding that each person is unique and it is important therefore to understand that learner styles will differ, but all are valid. It provides methods to examine and understand personal and emotional strengths and then apply that to identifying study skill strengths. There are activities that identify learning preferences and how to maximise on this discovery. Clearly understanding yourself is the first step to working out the very best way to work. How to use the mind-mapping tool to good effect is explored in detail with many examples and clear illustrations. The second part of the book explores how to apply this new found knowledge and challenges the reader to really examine their attitude to themselves and to learning; how to use this knowledge in a positive way to improve and really enjoy the learning experience. Activities for motivation, attention, creating a suitable learning environment, avoiding distraction and removing stress. This unique book focuses exclusively on learners and their learning. It includes a range of activities especially designed to empower the learner with knowledge about the variety of ways in which people learn, taking the reader on a positive and rewarding journey of self-discovery.

A handy, charmingly designed book filled with more than eighty experiments for the whole family—discover, learn, and enjoy a better understanding of basic garden science. From testing garden soil to making a homemade battery out of a potato, this book reveals the hidden science at work in the garden and around the house. The book is divided into four sections, each focusing on one area: biology, soil science, botany, and "kitchen sink" chemistry. Each experiment is straightforward and easy, involving no more than common household items. Learn how to germinate seeds with little more than envelopes and used egg cartons or amaze friends with the art of optical illusion. While learning how to create a homemade ant farm or making a pressed herbarium specimen, kids get grounded in the basic principles of science. The experiments have been designed as participatory learning activities that bring kids and family members together with the aim of developing young people's learning skills, interest in science, and the world around them.

Dr. Dana Schroeder personally battled extreme obesity for over twenty years until she elected to have life-transforming weight loss surgery in 2001. Since then, she has seen the surgery transform many more lives as well. Still, why are some so unhappy with their results? Dr. Schroeder relies on both her experiences as a Bariatric Nurse Practitioner, Life and Success coach as well as a Bariatric Surgery Graduate to provide a roadmap that invites others to look deep within and explore the core issues and limiting beliefs that prevent us from attaining the weight, health, and life we all deserve. In a comprehensive guide that addresses the root causes of the disease of obesity and how to overcome them, Dr. Schroeder shares heartwarming stories of actual clients and others as well as her own story; the nine keys to understanding personal desires, wants, needs, creating a plan, and taking action steps; discovery tools and tips; and wisdom coaching questions that will guide anyone to permanently release excess weight, stop living life on the sidelines, and ultimately realize complete personal fulfillment. Discover Your Hungers offers practical advice, personal stories, and proven tools that will help those challenged with weight issues to release the pounds, reconnect to their dreams, and revive their energy to pursue their ideal life. Wisdom questions for the purpose of self-discovery and self-coaching uses the 9 keys as a guide.
