I've enjoyed all the David Hunter books by Simon Beckett, and *The Restless Dead* is no exception. The book is well written, fast-paced and peppered with interesting and engaging characters. However, Simon Beckett's greatest strength is his amazing description of place - he really captures the isolation and bleakness of the Essex wetlands, resulting in a claustrophobic feeling throughout the book.

When a retired detective stumbles upon the body of a young woman, incinerated along with her island cottage, forensic anthropologist Dr. David Hunter uncovers evidence of murder, along with long-hidden secrets of the isolated island community.

Three years ago, David Hunter moved to rural Norfolk to escape his life in London, his gritty work in forensics, and a tragedy that nearly destroyed him. Working as a simple country doctor, seeing his lost wife and daughter only in his dreams, David struggles to remain uninvolved when the corpse of a woman is found in the woods, a macabre sign from her killer decorating her body. In one horrifying instant, the quiet summer countryside that had been David's refuge has turned malevolent—and suddenly there is no place to hide. The village of Manham is tight-knit, far from the beaten path. As a newcomer, Dr. Hunter is immediately a suspect. Once an expert in analyzing human remains, he reluctantly joins the police investigation—and when another woman disappears, it soon becomes personal. Because this time she is someone David knows, someone who has managed to penetrate the icy barrier around his heart. With a killer's bizarre and twisted methods screaming out to him, with a brooding countryside beset with suspicion, David can feel the darkness gathering around him. For as the clock ticks down on a young woman's life, David must follow a macabre trail of clues—all the way to its final, horrifying conclusion.

'A classy debut' The Times 'Best thriller I've read all year' Tess Gerritsen Dr David Hunter hoped he might at last have put the past behind him. But then they found what was left of Sally Palmer . . . It isn't just that she was a friend that disturbs him. Once he'd been a high-profile forensic anthropologist and all too familiar with the many faces of death, before tragedy made him abandon this previous life. Now the police want his help. But to become involved will stir up memories he's long tried to forget. Then a second woman disappears, plunging the close-knit community into a maelstrom of fear and paranoia. And no one, not even Hunter, is exempt from suspicion. Gruesome and gripping, this startling new British crime thriller has an unnerving and original twist.

'As bone-chillingly bleak as its subject . . . this doesn't disappoint' Financial Times A serial killer is on the loose and David Hunter suddenly finds that the past is far from dead and buried. The escape of a psychotic rapist and multiple murderer brings DI Terry Connor to David Hunter's doorstep, years after their bitter rift. This unwelcome reminder of the past forces Hunter to confront the situation at hand: eight years earlier Hunter and an ill-fated Body Recovery team, has tried to find the graves of Monk's teenage victims on the bleak expanse of Dartmoor. Only one of the missing girls' bodies was ever found. Suddenly Hunter receives an appeal from Sophie Keller, a young woman who also worked on the operation, and nothing is quite as it seems. Hunter is forced to question who he can really trust. Especially when his own life depends on it.

A field of corpses, laid out in a macabre display... A serial killer who confounds even the most seasoned profilers... A doctor whose life has been shattered by crime—plunged into the heart of a shocking investigation... In this masterful new novel by Simon Beckett, #1 internationally bestselling author of *Written in Bone* and *The Chemistry of Death*, forensic anthropologist David Hunter is thrust into his first murder investigation on U.S. soil—and his most devastating case yet. In the heat of a Tennessee summer, Dr. Hunter has come to Knoxville's legendary "Body Farm"—the infamous field laboratory where law enforcement personnel study real corpses—to escape London and the violence that nearly destroyed his life. He's also here to find out if he's still up to the job of sorting through death in all its strange and terrible forms... Hunter will soon find his answer when he's called to a crime scene in a remote Smoky Mountain cabin—a scene as grisly as it is bizarre. The body is taped to a table. Everything about the crime scene—the wounds, the decomposition, the microscopic evidence—quickly short-circuits the tools and methods of forensic experts. Within days, Hunter knows he's dealing with a serial killer, someone intimately familiar with the intricacies of forensics. All around him, egos and hierarchies clash—from the boasts of a renowned criminal profiler to the dogged work of a young female investigator—but fate keeps pushing Hunter further into the heart of the manhunt. And the killer keeps coming up with surprises: booby-trapping corpses, faking times of death, swapping bodies—finally turning his sights on after Hunter himself... An electrifying race against time, a fascinating journey into the world of forensic science, and a terrifying portrait of a killer in love with death itself, *Whispers of the Dead* is a thriller of the highest order.

'Masterful storytelling and macabre forensic details make his novels utterly chilling reads' TESS GERRITSEN Once a busy hospital, St Jude's now stands derelict, awaiting demolition. When a partially mummified corpse is found in the building's cavernous loft, forensics expert Dr David Hunter is called in to take a look. He can't say how long the body's been there, but he is certain it's that of a young woman. And that she was pregnant. Then part of the attic floor collapses, revealing another of the hospital's secrets: a bricked-up chamber with beds inside. And some of them are still occupied. For Hunter, what began as a straightforward case is about to become a twisted nightmare. And it soon becomes clear that St Jude's hasn't claimed its last victim . . . Chilling, visceral and masterfully paced, Simon Beckett's new crime thriller will leave you gasping.

Some moments burn in the mind for ever. The landing is dark. Light comes from a window at the far end, enough to run by. Breath comes hard. From the stairs sound heavy footfalls in pursuit. The landing ends in a last doorway. There is no more running, only the need to hide... Imagine not knowing the father of your child. Not knowing his name. What he looks like. Or what sort of person he is. Although she is desperate for a baby, that is something that Kate Powell cannot accept. Single, independent, she likes to be in control of her own life - even if it has, somehow, become strangely shallow and meaningless. Then Kate meets a man who seems to be the answer to all her problems. But we all know appearances can be dangerously deceptive. And Kate should too. Soon her life is out her hands. And out of control...

A badly decomposed body has been found in the mudflats and salt marshes of the Backwaters. Could it be linked to two unsolved missing-person cases? But then more remains are discovered. And as these desolate wetlands begin to give up their grisly secrets, Dr David Hunter is reminded that it's not the dead we need to fear

'Menacing, beautifully paced' Daily Mail Inspired by Beckett's visit to the world-renowned Body Farm in Tennessee A serial killer is at work, and the death toll is rising . . . The victim has been bound and tortured, the body decomposed beyond recognition. Then a second body is found. A nightmare is about to begin. Once a brutal abduction takes place, it becomes a terrifying race against time for forensic expert David Hunter . . .

'Somebody' I half-sob and then, more quietly, 'Please.' The words seem absorbed by the afternoon heat, lost amongst the trees. In their aftermath, the silence descends again. I know then that I'm not going anywhere... Sean is on the run. We don't know why and we don't know from whom, but we do know he's abandoned his battered, blood-stained car in the middle of an isolated part of rural France at the height of a sweltering summer. Desperate to avoid the police, he takes to the parched fields and country lanes but his leg is caught in a vicious animal trap. Near unconscious from pain and loss of blood, he is freed and taken in by two women - daughters of the owner of a rundown local farm with its ramshackle barn, blighted vineyard and the brooding lake. And it's then that Sean's problems really start... This nail-shredder of a thriller - like the fiction of Nicci French or Gillian Flynn - holds you from the beginning, tightening its grip as the story unfolds and shocks you with its final twist.
